

3T "Collapsible Type" Cable Drum Stands HDJ-3000

The HDJ-3000 drum stand will accommodate cable or rope drums up to a diameter of 2m (without chocking). The unit is supplied as 2 x end frame supports with bearings, hydraulic drum jack & a 50mm Shaft. The whole unit can easily be flattened for easy storage and transport.

BASIC OPERATING INSTRUCTIONS

Once you have your cable or rope drum in the desired location, slide the shaft through the centre of the drum & secure with the locating cones. The end frames are moved into place selecting the closest hole to suit the height of the shaft & the frames are erected. The lock collars are added to the end of the shaft securing the assembly together. Once secure the hydraulic jacks can lift the drum to the desired height.

SUITS DRUM DIMENSIONS

A	Min 50 mm
B	Max 2,000 mm
C	Max 1,200 mm
WLL	Max 3,000 Kg

This equipment must be managed, installed and operated by suitably qualified and competent personnel only.
