

## 5T "Upright Type" Cable Drum Stands

The HDJ-8000 drum stand will accommodate cable or rope drums up to a diameter of 3.4m (without chocking). The unit is supplied as 2 x end frame supports with bearings, hydraulic drum jack & a 60mm – 90mm Shaft. The unit is fitted with wheel for ease of positioning.

### BASIC OPERATING INSTRUCTIONS

Once you have your cable or rope drum in the desired location, slide the shaft through the centre of the drum & secure with the locating cones. The end frames are moved into place selecting the top or bottom roller bearing & positioning the supports to suit the height of the shaft. Once secure the hydraulic jacks can lift the drum to the desired height.

### SUITS DRUM DIMENSIONS

A	Min 60-90 mm
B	Max 3,400 mm
C	Max 2,000 mm
WLL	Max 5,000 Kg

This equipment must be managed, installed and operated by suitably qualified and competent personnel only.
